

# Connect-ED®

During the 2008/2009 school year, Seligman Schools was pleased to announce the launch of the Connect-ED service, our new alert and notification service. With this service, our schools can send periodic and personalized voice messages or emails to parents within minutes. This service has been used to complement our emergency preparedness procedures and to inform parents of upcoming school events such as statewide testing, fundraisers and important meetings and up-to-the-minute information like weather conditions affecting school schedules. More information about Connect-ED may be found at [www.blackboardconnect.com](http://www.blackboardconnect.com).

All parents, guardians or community members wishing to receive these updates, please contact Sheri James at 422-3233 with current contact information.
